## Continuous Selections Of Multivalued Mappings

**continuous selections with nonmetrizable range - ams** - continuous selections with non metrizable range 493 due to dugundji [5], states that if  $x$  is metrizable and if  $x_0$  is a closed subset of  $x$ , then every continuous function  $f$  from  $x_0$  to a locally convex space  $l$  can have **continuous selections - core** - continuous selections 213 the problem to characterize the corresponding  $n$ -dimensional subspaces. this question has also been raised in the book of holmes [10]. **continuous selections avoiding a set - core** - 196 e. michael / continuous selections the conditions on the sets  $p(x)$  in theorem 1.2 are somewhat complicated, but they are purely topological and thus applicable in a wide variety of situations. **continuous selections of multivalued mappings - springer** - continuous selections of multivalued mappings by dusan repovs department of mathematics, university of ljubljana, ljubljana, slovenia and pavel vladimirovic semenov **continuous selections for vector measures author(s): dov ...** - continuous selections for vector measures such a selection. to understand the difficulties in finding such a selection we compare the "restricted" problem to the one we started with. **contractibility and continuous selections** - contractibility and continuous selections by j. j. charatonik (wrodaw) abstract. some relations are studied between the contractibility and the existence of a continuous **fixed points, continuous selections, and existence of ...** - a locally hconvex space (not necessarily compact) and  $t$  was continuous and compact. in theorem 2.1 of [27],  $s$  a compact locally gconvex uniform  $x$  wa space and  $t$  was acyclicvalued. in theorem 4.1 of [26 ], the statement of [27] was investigated to the case with  $t$  being gconvexvalued. theorem 2 of ... **continuous selections on spaces of continuous functions - unam** - comment. math. univ. carolinae, 47,4(2006)641-660 continuous selections on spaces of continuous functions angel tamariz-mascar´ua abstract. for a space  $z$ , we denote by  $f(z)$ ,  $k(z)$  and  $f_2(z)$  the hyperspaces of **continuous essential selections and integral functionals** - continuous essential selections and integral functionals ari-pekka perkkio august 22, 2013 abstract given a strictly positive measure, we characterize inner semicontinuous solid **uniformly continuous selections for multi-valued maps** - introduction theorem (michael) if  $f : x \rightarrow y$  is a lower semicontinuous multi-valued map of a zero-dimensional paracompact space  $x$  into a complete metric space  $y$  **continuous selections and fixed points on noncompact or ...** - [18], yu and lin studied continuous selections of multi-valued mappings defined on noncompact spaces, but they assume some kind of coercivity conditions instead. in this paper, we establish a continuous selection theorem for a multi-valued **differential inclusions without convexity: a survey of ...** - differential inclusions without convexity: a survey of directionally continuous selections. alberto bressan s.i.s.a., via beirut 4, trieste, 34014, italy. **quasi continuous selections of upper baire continuous ...** - 70 m. matejdes general sufficient conditions for the existence of a quasi continuous selection (much stronger than the first result of this kind proved in [7]). **continuous selections and realcompactness** - pacific journal of mathematics vol. 93, no. 2, 1981 continuous selections and realcompactness i. blum and s. swaminathan the class of basically fixed, lowersemicontinuous carriers **continuous selections from topological to metric spaces** - continuous  $sm_{\sim}$ -nons from  $toeot\sim cal$  to  $mmmc$  spaces 429 let  $f$  be a multffunction from a topological space  $x$  to a metric space  $y$ .
